

Bar and Nightclub Management Solutions

Manage Multiple Tabs at Once and Repeat Rounds With a Single Touch

Bars and nightclubs must be able to quickly serve patrons drinks during rush periods, such as happy hour. Focus does this while allowing bar and nightclub owners to keep a pulse on what is happening within their establishment.

With Focus, bartenders can manage multiple tabs at once and easily repeat rounds with a single touch. Tabs are easily opened or closed in seconds. Just swipe a customer's card or enter their name. Integrated age verification protects your business from fines and mitigates your risk of lawsuits. Advanced auditing and theft prevention will safeguard your profit. Managers can monitor liquor shrinkage, analyze comps and voids, and identify cash drawer shortages. Real-time reports help operators keep track of sales, inventory, labor, and promotions.

Bars can leverage the FocusON mobile ordering and payment app to take orders on patios or at remote bars. With FocusON, servers can process transactions quickly and securely with an EMV certified solution. It even takes digital wallet payments like Apple Pay and Google Pay.
